

Delphi Measurement 4 x 100t Compression Load Cell Kit

Manufactured in Burleigh Heads, Queensland and utilizing world leading Mantracourt Software, this unique and compact compression load cell kit is ideal for weighing very heavy complex loads up to 400 tons.

Transmitter range:	800m (26mm ft)
Power Supply:	2x AA Batteries
Battery life:	5 Months
Radio Frequency:	2.5GHz
Operating Temperature:	-20° to +55°
Module Size:	80 x 62 x 34mm
Environmental Protection:	IP67

Handheld Display range:	Up to 800m
Power Supply:	2x AA Batteries
Battery Life:	35hrs continuous
Radio Frequency:	2.5GHz
Environmental Protection:	IP67 / Nema4
Dimensions:	90 x 152 x 30mm

WE TAKE THE PRESSURE OUT OF YOUR PROJECT!
